I clicked the link and it did not prompt me to log in at all so I think we should be good. Thank you!

I am all done with the project now. It is in the G: drive. I can publish it in the LMS zip file if needed as well.

Here is the link but please make sure it works without having to log in as a member.

<https://www.waspc.org/assets/ProfessionalServices/modelpolicies/protection%20orders%20orders%20to%20surr%20ender%20weapons%20and%20extreme%20risk%20protection%20orders%20information.pdf>

Donna,

Did you get this document online? If so, do you have a link I could link it to?

If not, what I will probably do is upload it on Box.com and link it that way since the document is more than just a couple pages.

This is the last thing I need to add to the project and then I should be done and ready to publish it to LMS. Vicki – do you want the zip file or the actual project?

Thanks!
