Good morning,

Attached, is your first installment of records for your public records requests regarding pursuits. When reviewing pursuits, they only used the first few supplements of the report, photos and the form submitted by the pursuing officer(s). If you would like the full report, please let me know.

1) The name and version of the record management software and/or system (RMS) that your agency currently uses to maintain data on vehicle pursuits, if any;

We use an excel spreadsheet to track pursuits until 2023 we switched to using an Excel Spreadsheet. I have attached a copy of a blank one we use, and it is named "Vehicle Pursuit Log 2024". You can also see the attached 2023 log filled out. There was only one pursuit in 2022 and there was not a log produced.

2) The year that your agency first began keeping track of data on vehicular pursuits in an RMS if any, the name, and version of the RMS used at that time, and whether a continuous set of electronic records are currently available since you first began recording pursuits in an RMS

Our agency began keeping track long before 2012, however the records have been destroyed and we only have proof as far back as 2012. We used a Microsoft word document prior to the recent year to track pursuits, we do not have a software or program.

3) A list of all vehicle pursuits that your agency was involved in from 2019 through 2023, including incident date, report number, and any/all other RMS data fields that are not required to be redacted by law

2019, 2020 and 2023 tracking logs are attached. There was only 1 pursuit in 2022 and no log was produced.

4) Policy manuals, rules, and regulations for your agency relating to vehicle pursuits, including record-keeping and data collection on pursuits, that were in effect between 2019 and 2023

I have attached the two policies that were in effect. The one labeled "Prior Vehicle Pursuit Policy" was in effect in 2019 until it was updated in 2024 by the current policy "Vehicle_Pursuits – Current Policy".

5) Reports, data and/or summary statistics, and analyses related to vehicle pursuits produced by your agency between 2019 and 2023 in accordance with your agency's policies, rules, and regulations.

I did not locate any reports/summary statistics related to vehicle pursuits produced by our agency.

It was also discovered that our 2021 pursuit documents had been inadvertently destroyed. Our IT department and admin checked their records and backup records and were unable to locate any corresponding items. We do apologize for this inconvenience. There are multiple items still to process as I have only processed the first pursuit in 2019, the policies and

logs. Before we begin your next installment, please respond advising you received these documents as it's a large request.

Thank you,

Miranda Elgas
