Request

Hello,

Under the Washington Public Records Act, §42.56 et seq., I am requesting any/all of the following records from the Puyallup Police Department:

- 1) The name and version of the record management software and/or system (RMS) that your agency currently uses to maintain data on vehicle pursuits, if any;
- 2) The year that your agency first began keeping track of data on vehicular pursuits in an RMS if any, the name and version of the RMS used at that time, and whether a continuous set of electronic records are currently available since you first began recording pursuits in an RMS;
- 3) A list of all vehicle pursuits that your agency was involved in from 2019 through 2023, including incident date, report number, and any/all other RMS data fields that are not required to be redacted by law;
- 4) Policy manuals, rules, and regulations for your agency relating to vehicle pursuits, including record-keeping and data collection on pursuits, that were in effect between 2019 and 2023;
- 5) Reports, data and/or summary statistics, and analyses related to vehicle pursuits produced by your agency between 2019 and 2023 in accordance with your agency's policies, rules, and regulations;

6) Internal and external publications by your agency (e.g. monthly/annual reports, newsletters, materials provided to government officials) produced between 2019 through 2023 containing vehicle pursuits data and/or summary statistics;

7) Written reviews and analyses of vehicle pursuits, other than incident reports, produced by your agency between 2019 through 2023 in accordance CALEA accreditation standards and/or model policies; and

8) Written reviews and analyses of vehicle pursuits, other than incident reports, produced by your agency between 2019 through 2023 pursuant to local, state, or federal law.

Where possible, I would like the records provided electronically. This information is not being sought for commercial purposes. The Washington Public Records Act requires a response to this request be made within five (5) business days. If access to the records I am requesting will take longer than this amount of time, please contact me with information about when I might expect copies or the ability to inspect the requested records. If you deny part or all of my request, please cite each specific exemption you feel justifies the refusal to release the information and notify me of the appeal procedures available to me under the law. Thank you for your assistance.

Hello Heather,

Please see the attached records related to this request.

1 – the Puyallup Police Department currently uses BlueTeam / IAPro for all vehicle pursuits.

2 – This program was adopted in 2018. Prior to the use of this program, pursuits were tracked via excel.

3 – Excel document attached (Pursuit Data 2018-2023). IAPro NextGen Reports 2019-2023

4 – Documents attached. *Each release is dated. This date correlates with a policy update and release of the entire policy manual. It does not mean that the Vehicle Pursuit Policy itself was modified with each and every release.

5 – Annual reports attached (No pursuit review during 2021)

6 – Excel document attached (Pursuits and Eludes 2018-current) – internal department documentation of inability to pursue vehicles due to HB1054.

Few items to note with this document:

Pursuit-Elude – This is a count of all of the reports where “Traffic Pursuit/Eluding” was listed as an offense.

UTP – This is a list of all of the CAD calls that used the UTP (unable to pursue) disposition code in CAD. The code was not official until January 1, 2023, so the calls prior to that are where someone just added it due to common sense. It was not required, so the pre - January 2023 incidents are not necessarily an exhaustive list of all of the times this happened, and the flag can be overridden if another disposition code is more important.

The two lists (of the pre UTP flag and the UPT list) do cross-over each other and do not always match. There are many different ways of tracking calls and closing calls – in addition to different dispatching routines and different expectations of patrol.

7 – Annual reports attached (No pursuit review for 2021).

8 – No additional documents to provide.

If you need any additional information or help understanding any of these records, please let me know.
