

Vehicle Pursuits

308.1 PURPOSE AND SCOPE

This policy provides guidelines for vehicle pursuits in order to protect the safety of involved officers, the public, and fleeing suspects.

308.1.1 DEFINITIONS

Definitions related to this policy include:

Blocking or vehicle intercept - A slow-speed coordinated maneuver where two or more pursuing vehicles simultaneously intercept and block the movement of a suspect vehicle, the driver of which may be unaware of the impending enforcement stop. The goal is containment and preventing a pursuit. Blocking is not a moving or stationary roadblock.

Boxing-in - A tactic designed to stop a suspect's vehicle by surrounding it with law enforcement vehicles and then slowing all vehicles to a stop.

Pursuit Intervention Technique (PIT) - A low-speed maneuver designed to cause the suspect vehicle to spin out, stall, and come to a stop.

Ramming - The deliberate act of contacting a suspect's vehicle with another law enforcement vehicle to functionally damage or otherwise force the suspect's vehicle to stop.

Roadblocks - A tactic designed to stop a suspect's vehicle by intentionally placing a law enforcement vehicle or other immovable object in the path of the suspect's vehicle.

Terminate - To discontinue a pursuit or stop chasing fleeing vehicles.

Tire deflation device - A device designed to puncture the tires of the pursued vehicle.

Trail - Following the path of the pursuit at a safe speed while obeying all traffic laws and without activating emergency equipment. If the pursuit is at a slow rate of speed, the trailing vehicle will maintain sufficient distance from the pursuit vehicles so as to clearly indicate an absence of participation in the pursuit.

Vehicle pursuit - An attempt by a uniformed officer in a vehicle equipped with emergency lights and a siren to stop a moving vehicle where the operator of the moving vehicle appears to be aware that the officer is signaling the operator to stop the vehicle and the operator of the moving vehicle appears to be willfully resisting or ignoring the officer's attempt to stop the vehicle by increasing vehicle speed, making evasive maneuvers, or operating the vehicle in a reckless manner that endangers the safety of the community or the officer.

308.1.2 OFFICIALLY MARKED PATROL VEHICLE

An authorized police vehicle equipped with emergency lights and siren, the official markings/ insignia of the College Place Police Department, and operated by a uniformed law enforcement officer.

College Place Police Department

College Place PD Policy Manual

Vehicle Pursuits

308.1.3 UNMARKED PATROL VEHICLE

An authorized police vehicle equipped with emergency lights and siren but without the official markings/insignia of the College Place Police Department, and generally operated by the chief of police, the lieutenant, the detective, or the sergeant.

308.1.4 SUPERVISING OFFICER

A supervising officer is a commissioned employee of this police agency with the rank of sergeant or above. In the absence of a ranking officer, a person with the designation of officer-in-charge, or other officer with seniority will have the authority to terminate a pursuit initiated by this department.

308.1.5 PRIMARY PURSUING UNIT

This patrol unit is operated by the officer engaged in a pursuit who is in closest proximity to the fleeing vehicle.

308.1.6 SECONDARY PURSUING UNIT

The second officer to engage in a pursuit may be at the request of the primary unit or at the discretion of a supervising officer.

308.1.7 INTENTIONAL INTERVENTION

Intentional intervention (ramming of a pursued vehicle) is the deliberate act of hitting another vehicle with the police vehicle for the expressed purpose of functionally damaging or forcing the suspect vehicle from the roadway. Intentional intervention can potentially result in lethal force and should only be initiated when it is imperative to stop the suspect vehicle in the interest of present or future public safety concerns and all other avenues to do so have been exhausted.

308.1.8 ROADBLOCKS/BLOCKADES

1. A roadblock is a barricade using a vehicle or other obstruction (excluding hollow spike strips) across a roadway set up to stop or prevent the escape of a fleeing vehicle.

2. Roadblocks may be used to apprehend fleeing felons when necessary, provided:

- a. A description of the suspect(s) and suspect vehicle is available (the description must be adequate for proper identification).
- b. Supervisory approval is obtained.
- c. An "escape route" is left available.
- d. The suspect(s) is wanted for any of the following:
 1. Homicide
 2. Robbery in the first degree
 3. Rape
 4. Assault with intent to kill or felonious assault
 5. Prison escape (involving a felon)

College Place Police Department

College Place PD Policy Manual

Vehicle Pursuits

308.1.9 HOLLOW SPIKE STRIP / STOP STICKS

1. A system of hollow compact plastic or metal spikes of varying length and design intended to deflate the tires of a fleeing suspect vehicle within a minute or so, but in a manner that prevents the driver from losing control of the car.

2. The Hollow Spike Strip or Stop Sticks will be utilized only after supervisory approval, if a supervisor is available; otherwise, a duty sergeant shall be notified as soon as possible. All officers must have received training the the use of spike strip before utilization.

a. Communications/Dispatch

1. All officers involved in the pursuit shall be on the same communications frequency. The operator of the spike trip should have a portable radio for ready use.

2. Pursuing Officers shall keep the officer at the site of the spike strip informed of the following:

- a. Location by milepost or cross-street
- b. Direction of travel and speed.
- c. Erratic driving behaviors
- d. Possible weapons involved
- e. Any other pertinent data to the chase

b. Deployment

1. When deploying a Hollow Spike Strip or Stop sticks, the following precautions should be considered.

- a. The operator deploying the spike strip should do so from a position of safety.
- b. Heavy protective gloves should be worn when setting up the device.
- c. The spike strip should not be used in locations where specific geographic configurations increase the risk of serious injuries to the operator, violator, or the public (alongside of rivers, embankments, etc.)
- d. The spike strip should be readied for deployment in such a manner that the spikes are directed toward the fleeing vehicle.
- e. Traffic cones or road flares should be set up, if possible.
- f. The spike strip shall not be deployed on two-way roadways, unless oncoming traffic has been stopped some distance from the actual deployment site.
- g. As the fleeing vehicle approaches, the officer should pull the spike strip onto the roadway surface and let go of the device in case the device jumps up when the violator's vehicle passes over it.

College Place Police Department

College Place PD Policy Manual

Vehicle Pursuits

h. When nearing the spike strip, pursuing officers and the officer deploying the device must maintain communication. The pursuing officers must back off to allow the device to be cleared from the roadway.

i. The spike strip should be used to stop fleeing motorcycles only when attempting to stop for homicide, kidnapping, robbery with firearms, rape, assault with intent to kill, or prison escape (involving a felon).

2. Every effort should be made to avoid uninvolved motorists running over the spike strip.

3. If an uninvolved motorist does run over the strip, the driver should be contacted as soon as possible to explain the situation. They should be assisted in obtaining tires (at city cost).

c. Investigation

1. Whenever the Hollow Spike Strip is deployed, a Pursuit Review shall be completed by a supervisor and forwarded to the Chief. If the deployment of the Hollow Spike Strip causes a property damage (other than damage to tires and wheels) or injury collision, the proper collision investigation shall be conducted.

308.1.10 PURSUIT IMMOBILIZATION TECHNIQUE (P.I.T.)

The P.I.T. is a technique utilized to reduce the risks of a prolonged vehicle pursuit and bring it to a successful conclusion. It is described as a forced rotational vehicle stop of a non-compliant suspect. Officers are prohibited from using this technique until they have received specialized training in its implementation.

1. PIT - Under 40 Miles Per Hour

a. PIT maneuvers under 40 miles per hour (MPH) may be executed at the discretion of a pursuing officer. If executed at less than 40 MPH, PIT may be used under the following conditions:

1. PIT shall be used only to apprehend felony offenders whose actions indicate a disregard for the safety of the officers(s) or the public.
2. Eluding can be the only felony present precipitating the need for PIT maneuvers.

2. PIT - Over 40 Miles Per Hour

a. If executed at 40 miles per hour (MPH) or higher, PIT requires supervisory approval. In these instances, PIT may be used:

1. After less intrusive methods have been tried or considered and have been judged to be ineffective; and
2. When the totality of the circumstances requires immediate intervention to stop a fleeing suspect's vehicle.

3. Sight Assessment for Use of PIT

College Place Police Department

College Place PD Policy Manual

Vehicle Pursuits

a. Sight assessment is crucial when considering the use of PIT. Prior to executing a PIT maneuver, officers should consider features in the surrounding area, such as:

1. Blind curves (PIT works best in curves, but should not be executed when the officer believes that visibility is significantly compromised).
2. Bridge abutments.
3. Major obstacles on road sides.
4. Oncoming traffic.
5. Pedestrians.

4. Other Requirements

a. Officers shall not be disciplined for a decision against executing a PIT maneuver in a pursuit situation. Officers are not authorized to execute PIT maneuvers until successfully completing an authorized Washington State Criminal Justice training program in the use of PIT.

308.1.11 BOXING-IN

Officers of the College Place Police Department are not authorized to utilize a moving boxing-in technique, which is designed to slow a suspect vehicle to a stop by surrounding it with police units. However, when a suspect vehicle comes to a stop, officers may deploy this technique to prevent escape.

308.1.12 BLOCKING OR VEHICLE INTERCEPT

This is a slow speed coordinated maneuver where two or more patrol vehicles simultaneously intercept and block the movement of a suspect vehicle, the driver of which may be unaware of the impending enforcement stop, with the goal of containment and preventing the necessity of a pursuit from starting. Blocking is not a moving or stationary road block.

308.2 POLICY

It is the policy of this department to weigh the importance of apprehending suspects who unlawfully flee from law enforcement against the risks associated with vehicle pursuits.

308.3 OFFICER RESPONSIBILITIES

Vehicle pursuits shall only be conducted using authorized police department emergency vehicles that are equipped with and displaying emergency lighting and sirens as required by law.

Officers shall drive with due regard for the safety of all persons and property. However, officers may, when in pursuit of a suspect and provided there is no unreasonable risk to persons and property (RCW 46.61.035):

- (a) Proceed past a red or stop signal or stop sign but only after slowing down as may be necessary for safe operation.
- (b) Exceed the speed limit.

College Place Police Department

College Place PD Policy Manual

Vehicle Pursuits

- (c) Disregard regulations governing parking, direction of movement or turning in specified directions.

308.3.1 WHEN TO INITIATE A PURSUIT

Officers are not authorized to initiate a pursuit unless the following criteria exists (RCW 10.116.060):

- (a) When reasonable suspicion exists to believe that a person has violated the law.
- (b) The pursuit is necessary for the purpose of identifying or apprehending the person.
- (c) The person poses a threat to the safety of others and the safety risks of failing to apprehend or identify the person are considered to be greater than the safety risks of the vehicle pursuit under the circumstances.

308.3.2 WHEN TO TERMINATE A PURSUIT

Pursuits should be terminated whenever the totality of objective circumstances known or which reasonably ought to be known to the officer or supervisor during the pursuit indicates that the present risks of continuing the pursuit reasonably appear to outweigh the risks resulting from the suspect's escape.

When a supervisor directs the pursuit to be terminated, officers shall immediately terminate the pursuit.

The factors listed in this policy on when to initiate a pursuit will apply equally to the decision to terminate a pursuit. Officers and supervisors must objectively and continuously weigh the seriousness of the offense against the potential danger to innocent motorists, themselves and the public when electing to continue a pursuit.

In addition to the factors that govern when to initiate a pursuit, other factors should be considered in deciding whether to terminate a pursuit, including:

- (a) The distance between the pursuing vehicle and the fleeing vehicle is so great that further pursuit would be futile or require the pursuit to continue for an unreasonable time or distance.
- (b) The pursued vehicle's location is no longer definitely known.
- (c) The pursuing vehicle sustains damage or a mechanical failure that renders it unsafe to drive.
- (d) The pursuing vehicle's emergency lighting equipment or siren becomes partially or completely inoperable.
- (e) Hazards to uninvolved bystanders or motorists.
- (f) The danger that the continued pursuit poses to the public, the officers or the suspect, balanced against the risk of allowing the suspect to remain at large.
- (g) The identity of the suspect is known and it does not reasonably appear that the need for immediate capture outweighs the risks associated with continuing the pursuit.

College Place Police Department

College Place PD Policy Manual

Vehicle Pursuits

- (h) Extended pursuits of violators for misdemeanors not involving violence or weapons (independent of the pursuit) are generally discouraged.

308.3.3 VEHICLE PURSUIT FACTORS

Factors that shall be considered, both individually and collectively, when deciding to initiate or continue a pursuit include but are not limited to (RCW 10.116.060):

- (a) The seriousness of the known or reasonably suspected crime and its relationship to community safety.
- (b) The importance of protecting the public and balancing the known or reasonably suspected offense and the apparent need for immediate capture against the risks to officers, innocent motorists, and others.
- (c) The safety of the public in the area of the pursuit, including the type of area, time of day, the amount of vehicular and pedestrian traffic (e.g., school zones), and the speed of the pursuit relative to these factors.
- (d) The pursuing officers' familiarity with the area of the pursuit, the quality of radio communications between the pursuing vehicles and the dispatcher/supervisor, and the driving capabilities of the pursuing officers under the conditions of the pursuit.
- (e) Whether weather, traffic, and road conditions unreasonably increase the danger of the pursuit when weighed against the risks resulting from the suspect's escape.
- (f) Whether the identity of the suspect has been verified and whether there is comparatively minimal risk in allowing the suspect to be apprehended at a later time.
- (g) The performance capabilities of the vehicles used in the pursuit in relation to the speed and other conditions of the pursuit.
- (h) Emergency lighting and siren limitations on unmarked police department vehicles that may reduce visibility of the vehicle, such as visor or dash-mounted lights, concealable or temporary emergency lighting equipment, and concealed or obstructed siren positioning.
- (i) Vehicle speeds.
- (j) Other persons in or on the pursued vehicle (e.g., minors, passengers, co-offenders, hostages).
- (k) The availability of other resources, such as air support assistance.
- (l) Whether the pursuing vehicle is carrying passengers other than on-duty police officers. Pursuits should not be undertaken with an arrestee in the pursuit vehicle unless exigent circumstances exist, and then only after the need to apprehend the suspect is weighed against the safety of the arrestee in transport. A vehicle containing more than a single arrestee should not be involved in a pursuit.
- (m) Whether the pursuit has supervisory oversight (RCW 10.116.060)

308.4 PURSUIT VEHICLES

When involved in a pursuit, unmarked police department emergency vehicles should be replaced by marked emergency vehicles whenever practicable.

College Place Police Department

College Place PD Policy Manual

Vehicle Pursuits

Vehicle pursuits should be limited to three police department emergency vehicles (two pursuit vehicles and the supervisor vehicle). However, the number of vehicles involved will vary with the circumstances.

An officer or supervisor may request that additional vehicles join a pursuit if, after assessing the factors outlined above, it appears that the number of officers involved would be insufficient to safely arrest the number of suspects. All other officers shall stay out of the pursuit but should remain alert to its progress and location. Any officer who drops out of a pursuit may then, if necessary, proceed to the pursuit termination point at legal speeds, following the appropriate rules of the road.

308.4.1 MOTORCYCLES

When involved in a pursuit, police department motorcycles should be replaced by marked emergency vehicles as soon as practicable.

308.4.2 VEHICLES WITHOUT EMERGENCY EQUIPMENT

Officers operating vehicles not equipped with emergency lights and siren are prohibited from initiating or joining in any pursuit. Officers in such vehicles may provide support to pursuing vehicles as long as the vehicle is operated in compliance with all traffic laws. Those officers should discontinue such support immediately upon arrival of a sufficient number of authorized emergency police department vehicles or any air support.

308.4.3 PRIMARY PURSUIT VEHICLE RESPONSIBILITIES

The initial pursuing officer will be designated as the primary pursuit vehicle and will be responsible for the conduct of the pursuit unless the officer is unable to remain reasonably close to the suspect's vehicle. The primary responsibility of the officer initiating the pursuit is the apprehension of the suspect without unreasonable danger to themselves or others.

The primary pursuing officer shall notify a supervisor immediately upon initiating a vehicle pursuit. The officer and the supervisor shall consider alternatives to initiating a vehicle pursuit as well as safety considerations (RCW 10.116.060).

The primary pursuing officer shall notify the dispatcher, commencing with a request for priority radio traffic, that a vehicle pursuit has been initiated, and as soon as practicable provide information including but not limited to:

- (a) The location, direction of travel, and estimated speed of the suspect's vehicle.
- (b) The description of the suspect's vehicle including the license plate number, if known.
- (c) The reason for the pursuit.
- (d) The use of firearms, threat of force, violence, injuries, hostages, or other unusual hazards.
- (e) The number of occupants and identity or description.
- (f) The weather, road, and traffic conditions.
- (g) The need for any additional resources or equipment.

Vehicle Pursuits

- (h) The identity of other law enforcement agencies involved in the pursuit.

Until relieved by a supervisor or a secondary pursuing officer, the officer in the primary pursuit vehicle shall be responsible for broadcasting the progress of the pursuit. Unless circumstances reasonably indicate otherwise, the primary pursuing officer should, as soon as practicable, relinquish the responsibility of broadcasting the progress of the pursuit to an officer in a secondary pursuit vehicle or to air support joining the pursuit to minimize distractions and allow the primary pursuing officer to concentrate foremost on safe pursuit tactics.

308.4.4 SECONDARY PURSUIT VEHICLE RESPONSIBILITIES

The second officer in the pursuit will be designated as the secondary pursuit vehicle and is responsible for:

- (a) Immediately notifying the dispatcher of his/her entry into the pursuit.
- (b) Remaining a safe distance behind the primary pursuit vehicle unless directed to assume the role of primary pursuit vehicle or if the primary pursuit vehicle is unable to continue the pursuit.
- (c) Broadcasting information that the primary pursuing officer is unable to provide.
- (d) Broadcasting the progress of the pursuit, updating known or critical information and providing changes in the pursuit, unless the situation indicates otherwise.
- (e) Identifying the need for additional resources or equipment as appropriate.
- (f) Serving as backup to the primary pursuing officer once the suspect has been stopped.

308.5 PURSUIT DRIVING

The decision to use specific driving tactics requires the same assessment of the factors the officer considered when determining whether to initiate and/or terminate a pursuit. The following are tactics for officers who are involved in the pursuit:

- (a) Officers, considering their driving skills and vehicle performance capabilities, will space themselves from other involved vehicles such that they are able to see and avoid hazards or react safely to unusual maneuvers by the fleeing vehicle.
- (b) Because intersections can present increased risks, the following tactics should be considered:
 - 1. Available officers not directly involved in the pursuit may proceed safely to controlled intersections ahead of the pursuit in an effort to warn cross traffic.
 - 2. Pursuing officers should exercise due caution and slow down as may be necessary when proceeding through controlled intersections.
- (c) As a general rule, officers should not pursue a vehicle driving the wrong direction on a roadway, highway or freeway. In the event the pursued vehicle does so, the following tactics should be considered:
 - 1. Request assistance from available air support.
 - 2. Maintain visual contact with the pursued vehicle by paralleling the vehicle while driving on the correct side of the roadway.

College Place Police Department

College Place PD Policy Manual

Vehicle Pursuits

3. Request other officers to observe exits available to the suspect.
- (d) Notify the Washington State Patrol or other law enforcement agency if it appears that the pursuit may enter its jurisdiction.
- (e) Officers involved in a pursuit should not attempt to pass other pursuing vehicles unless the situation indicates otherwise or they are requested to do so by the pursuing officer and with a clear understanding of the maneuver process between the involved officers.

308.5.1 PURSUIT TRAILING

In the event that initial pursuing officers relinquish control of the pursuit to another agency, the initial officers may, with the permission of a supervisor, trail the pursuit to the termination point in order to provide information and assistance for the arrest of the suspect and reporting the incident.

308.5.2 AIR SUPPORT ASSISTANCE

When available, air support assistance should be requested. Once the air support crew has established visual contact with the pursued vehicle, they should assume communication control over the pursuit. The primary and secondary ground pursuit vehicles, or involved supervisor, will maintain operational control but should consider whether the participation of air support warrants their continued close proximity and/or involvement in the pursuit.

The air support crew should coordinate the activities of resources on the ground, report progress of the pursuit, and provide officers and supervisors with details of upcoming traffic congestion, road hazards or other pertinent information to evaluate whether to continue the pursuit. If officers on the ground are not within visual contact of the pursued vehicle and the air support crew determines that it is unsafe to continue the pursuit, the air support crew should recommend terminating the pursuit.

308.5.3 OFFICERS NOT INVOLVED IN THE PURSUIT

Officers who are not involved in the pursuit should remain in their assigned areas, should not parallel the pursuit route and should not become involved with the pursuit unless directed otherwise by a supervisor. Uninvolved officers are authorized to use emergency equipment at intersections along the pursuit path to clear intersections of vehicular and pedestrian traffic to protect the public. Those officers should attempt to place their vehicles in locations that provide some safety or an escape route in the event of an unintended collision or if the suspect intentionally tries to ram the police department vehicle.

Non-pursuing members needed at the pursuit termination point should respond in a nonemergency manner, observing the rules of the road.

The primary pursuit vehicle, secondary pursuit vehicle and supervisor vehicle should be the only vehicles operating under emergency conditions (emergency lights and siren) unless other officers are assigned to the pursuit.

College Place Police Department

College Place PD Policy Manual

Vehicle Pursuits

308.6 SUPERVISORY CONTROL AND RESPONSIBILITIES

Supervisory and management control will be exercised over all vehicle pursuits involving officers from this department (RCW 10.116.060).

The field supervisor of the officer initiating the pursuit, or if unavailable, the nearest field supervisor, will be responsible for:

- (a) Immediately notifying involved officers and the dispatcher of supervisory presence and ascertaining all reasonably available information to continuously assess the situation and risk factors associated with the pursuit. This is to ensure that the pursuit is conducted within established department guidelines.
- (b) Engaging in the pursuit, when appropriate, to provide on-scene supervision.
- (c) Exercising management and control of the pursuit even if not engaged in it.
- (d) Ensuring that no more than the required law enforcement vehicles are involved in the pursuit under the guidelines set forth in this policy.
- (e) Directing that the pursuit be terminated if, in the field supervisor's judgment, it is not justified to continue the pursuit under the guidelines of this policy.
- (f) Ensuring that assistance from air support, canines, or additional resources is requested, if available and appropriate.
- (g) Ensuring that the proper radio channel is being used.
- (h) Ensuring that the Shift Sergeant is notified of the pursuit, as soon as practicable.
- (i) Ensuring the notification and/or coordination of outside agencies if the pursuit either leaves or is likely to leave the jurisdiction of this department.
- (j) Controlling and managing College Place Police Department officers when a pursuit enters another jurisdiction.
- (k) Preparing a post-pursuit review and documentation of the pursuit as required.

308.6.1 SHIFT SERGEANT RESPONSIBILITIES

Upon becoming aware that a pursuit has been initiated, the Shift Sergeant should monitor and continually assess the situation and ensure the pursuit is conducted within the guidelines and requirements of this policy. The Shift Sergeant has the final responsibility for the coordination, control and termination of a vehicle pursuit and shall be in overall command.

The Shift Sergeant shall review all pertinent reports for content and forward them to the Division Commander.

308.6.2 PURSUITS ACROSS STATE LINES

Pursuits into the state of Oregon or other states for that matter require the immediate notification of the police jurisdiction which has been entered. If the fleeing suspect motorist is apprehended, the Oregon or other state authority must take the subject into their custody pending a formal extradition hearing or a waiver of such hearing. Due to Washington Court decisions the issuance of a citation at the scene of the stop and/or arrest is not permissible.

Vehicle Pursuits

308.7 THE DISPATCH CENTER

If the pursuit is confined within the City limits, radio communications will be conducted on the primary channel unless instructed otherwise by a supervisor or dispatcher. If the pursuit leaves the jurisdiction of this department or such is imminent, involved officers should, whenever available, switch radio communications to a tactical or emergency channel most accessible by participating agencies.

308.7.1 RESPONSIBILITIES

Upon notification or becoming aware that a pursuit has been initiated, the dispatcher is responsible for:

- (a) Clearing the radio channel of nonemergency traffic.
- (b) Coordinating pursuit communications of the involved officers.
- (c) Broadcasting pursuit updates as well as other pertinent information as necessary.
- (d) Ensuring that a field supervisor is notified of the pursuit.
- (e) Notifying and coordinating with other involved or affected agencies as practicable.
- (f) Notifying the Shift Sergeant as soon as practicable.
- (g) Assigning an incident number and logging all pursuit activities.

308.8 LOSS OF PURSUED VEHICLE

When the pursued vehicle is lost, the involved officers should broadcast pertinent information to assist other officers in locating the vehicle. The primary pursuing officer or supervisor will be responsible for coordinating any further search for either the pursued vehicle or suspects fleeing on foot.

308.9 INTERJURISDICTIONAL CONSIDERATIONS

When a pursuit enters another agency's jurisdiction, the primary pursuing officer or supervisor, taking into consideration the distance traveled, unfamiliarity with the area and other pertinent facts, should determine whether to request the other agency to assume the pursuit.

Unless entry into another jurisdiction is expected to be brief, it is generally recommended that the primary pursuing officer or supervisor ensure that notification is provided to each outside jurisdiction into which the pursuit is reasonably expected to enter, regardless of whether the jurisdiction is expected to assist.

308.9.1 ASSUMPTION OF PURSUIT BY ANOTHER AGENCY

Officers will relinquish control of the pursuit when another agency has assumed the pursuit, unless the continued assistance of the College Place Police Department is requested by the agency assuming the pursuit. Upon relinquishing control of the pursuit, the involved officers may proceed, with supervisory approval, to the termination point of the pursuit to assist in the investigation. The supervisor should coordinate such assistance with the assuming agency and obtain any information that is necessary for any reports.

Vehicle Pursuits

The roles and responsibilities of officers at the termination point of a pursuit initiated by this department shall be coordinated with appropriate consideration of the needs of the agency assuming the pursuit.

Notification of a pursuit in progress should not be construed as a request to join the pursuit. Requests to or from another agency to assume a pursuit should be specific. Because of communication limitations between local law enforcement agencies, a request for another agency's assistance will mean that its personnel will assume responsibility for the pursuit. For the same reasons, when a pursuit leaves another jurisdiction and a request for assistance is made to this department, the other agency should relinquish control.

308.9.2 PURSUITS EXTENDING INTO THIS JURISDICTION

The agency that initiates a pursuit shall be responsible for conducting the pursuit. Officers from this department should not join a pursuit unless specifically requested to do so by the pursuing agency and with approval from a supervisor. The exception to this is when a single vehicle from the initiating agency is in pursuit. Under this circumstance, an officer from this department may, with supervisor approval, immediately join the pursuit until sufficient vehicles from the initiating agency join the pursuit or until additional information is provided allowing withdrawal from the pursuit.

When a request is made for this department to assist or take over a pursuit that has entered the jurisdiction of the College Place Police Department, the supervisor should consider:

- (a) The public's safety within this jurisdiction.
- (b) The safety of the pursuing officers.
- (c) Whether the circumstances are serious enough to continue the pursuit.
- (d) Whether there is adequate staffing to continue the pursuit.
- (e) The ability to maintain the pursuit.

As soon as practicable, a supervisor or the Shift Sergeant should review a request for assistance from another agency. The Shift Sergeant or supervisor, after considering the above factors, may decline to assist in or assume the other agency's pursuit.

Assistance to a pursuing agency by officers of this department will conclude at the City limits, provided that the pursuing agency has sufficient assistance from other sources. Ongoing participation from this department may continue only until sufficient assistance is present.

In the event that the termination point of a pursuit from another agency is within this jurisdiction, officers shall provide appropriate assistance including, but not limited to, scene control, coordination and completion of supplemental reports and any other assistance requested or needed.

308.10 PURSUIT INTERVENTION

Pursuit intervention is an attempt to stop the suspect's ability to continue to flee in a vehicle through tactical application of technology, tire deflation devices, blocking or vehicle intercept, boxing-in, the PIT, ramming or roadblock procedures.

Vehicle Pursuits

308.10.1 WHEN USE IS AUTHORIZED

As soon as practicable after initiating a pursuit, the primary pursuing officer and supervisor, if available, shall develop a plan for the termination of the pursuit using available intervention options (RCW 10.116.060).

In deciding whether to use intervention tactics, officers/supervisors should balance the risk of allowing the pursuit to continue with the potential hazards arising from the use of each tactic to the public, the officers, and persons in or on the pursued vehicle. With this in mind, the decision to use any intervention tactic should be reasonable in light of the circumstances apparent to the officer at the time of the decision.

308.10.2 USE OF FIREARMS

The use of firearms to disable a pursued vehicle is not generally an effective tactic and involves all the dangers associated with discharging firearms. Officers should not utilize firearms during an ongoing pursuit unless the conditions and circumstances meet the requirements authorizing the use of deadly force. Nothing in this section shall be construed to prohibit any officer from using a firearm to stop a suspect from using a vehicle as a deadly weapon (see the Use of Force Policy).

308.10.3 INTERVENTION STANDARDS

Any intervention tactic, depending upon the conditions and circumstances under which it is used, may present dangers to the officers, the public, or anyone in or on the vehicle being pursued. Certain applications of intervention tactics may be construed to be a use of force, including deadly force, and are subject to policies guiding such use. Officers shall consider these facts and requirements prior to deciding how, when, where, and if an intervention tactic should be employed.

- (a) Blocking or vehicle intercept should only be considered in cases involving felony suspects or impaired drivers who pose a threat to the public's safety, and when officers reasonably believe that attempting a conventional enforcement stop will likely result in the driver attempting to flee in the vehicle. Because of the potential risks involved, this intervention tactic should only be employed by properly trained officers and after giving consideration to the following:
 - 1. The need to immediately stop the suspect vehicle or prevent it from leaving substantially outweighs the risk of injury or death to occupants of the suspect vehicle, officers, or others.
 - 2. All other reasonable intervention tactics have failed or reasonably appear ineffective.
 - 3. Employing the blocking or vehicle intercept maneuver does not unreasonably increase the risk of danger to those involved or the public.
 - 4. The suspect vehicle is stopped or traveling at a low speed.
 - 5. Only law enforcement vehicles should be used in this tactic.
- (b) The PIT is limited to use by properly trained officers with the approval of a supervisor and upon assessment of the circumstances and conditions presented at the time,

College Place Police Department

College Place PD Policy Manual

Vehicle Pursuits

including the potential for risk of injury to officers, the public, and occupants of the pursued vehicle.

- (c) Ramming a fleeing vehicle should be done only after other reasonable tactical means at the officer's disposal have been exhausted or would not be effective, and immediate control is necessary. Ramming should be reserved for situations where there does not appear to be another reasonable alternative method. If there does not reasonably appear to be a present or immediately foreseeable serious threat to the public, the use of ramming is not authorized. When ramming is used as a means to stop a fleeing vehicle, the following factors should be present:
 - 1. The suspect is an actual or suspected felon, who reasonably appears to represent a serious threat to the public if not apprehended.
 - 2. The suspect is driving with willful or wanton disregard for the safety of other persons or is driving in a reckless and life-endangering manner or using the vehicle as a weapon.
- (d) Boxing-in a suspect vehicle should only be attempted upon approval by a supervisor. The use of such a tactic must be carefully coordinated with all involved vehicles, taking into consideration the circumstances and conditions apparent at the time, as well as the potential risk of injury to officers, the public, and occupants of the pursued vehicle. Officers and supervisors should weigh the potential consequences against the need to immediately stop the vehicle.
- (e) Tire deflation devices (Stop Stick) should be deployed only after notification of pursuing officers and the supervisor of the intent and location of the intended deployment, and in a manner that:
 - 1. Should reasonably only affect the pursued vehicle.
 - 2. Provides the deploying officer adequate cover and escape from intentional or unintentional exposure to the approaching vehicle.
 - 3. Takes into account the limitations of such devices as well as the potential risk to officers, the public, and occupants of the pursued vehicle.
 - 4. Takes into account whether the pursued vehicle is a motorcycle, a vehicle transporting hazardous materials, or a school bus transporting children.
- (f) Because roadblocks involve a potential for serious injury or death to occupants of the pursued vehicle if the suspect does not stop, the intentional placement of roadblocks in the direct path of a pursued vehicle is generally discouraged and should not be deployed without prior approval of a supervisor. If roadblocks are deployed, it should only be done under extraordinary conditions when all other reasonable intervention tactics have failed or reasonably appear ineffective and the need to immediately stop the pursued vehicle substantially outweighs the risks of injury or death to occupants of the pursued vehicle, officers, or the public.

308.11 CAPTURE OF SUSPECTS

Proper self-discipline and sound professional judgment are the keys to a successful conclusion of a pursuit and apprehension of evading suspects. Officers shall use only that amount of force that

Vehicle Pursuits

reasonably appears necessary given the facts and circumstances perceived by the officer at the time of the event to accomplish a legitimate law enforcement purpose.

Unless relieved by a supervisor, the primary pursuing officer should coordinate efforts to apprehend the suspect following the pursuit. Officers should consider the safety of the public and the involved officers when formulating plans for setting up perimeters or for containing and capturing the suspect.

308.12 REPORTING REQUIREMENTS

All appropriate reports shall be completed to comply with appropriate laws and policies or procedures.

- (a) The primary pursuing officer shall complete appropriate crime/arrest reports.
- (b) The primary pursuing officer or supervisor shall complete the appropriate pursuit report.
- (c) After first obtaining the available information, the involved, or if unavailable, on-duty field supervisor shall promptly complete a supervisor's log or interoffice memorandum, briefly summarizing the pursuit to the Chief of Police or the authorized designee. This log or memorandum should include, at a minimum:
 - 1. Date and time of the pursuit.
 - 2. Initial reason and circumstances surrounding the pursuit.
 - 3. Length of pursuit in distance and time, including the starting and termination points.
 - 4. Involved vehicles and officers.
 - 5. Alleged offenses.
 - 6. Whether a suspect was apprehended, as well as the means and methods used.
 - (a) Any use of force shall be reported and documented in compliance with the Use of Force Policy.
 - 7. Arrestee information, if applicable.
 - 8. Any injuries and/or medical treatment.
 - 9. Any property or equipment damage.
 - 10. Name of supervisor at the scene or who handled the incident.
 - 11. A preliminary determination that the pursuit appears to be in compliance with this policy or that additional review and/or follow-up is warranted.
- (d) After receiving copies of reports, logs, and other pertinent information, the Chief of Police or the authorized designee shall conduct or assign the completion of a post-pursuit review, as appropriate.
- (e) Annually, the Chief of Police shall direct a documented management review and analysis of department vehicle pursuits to minimally address policy (including suitability and compliance), procedure, training, and/or personnel issues that are

identified during the review process. The Chief of Police shall review and approve the final report.

308.13 REGULAR AND PERIODIC PURSUIT TRAINING

In addition to initial and supplementary training on pursuits, all officers will participate, no less than annually, in regular and periodic training addressing this policy and the importance of vehicle safety and protecting the public. Training will include recognition of the need to balance the known offense and the need for immediate capture against the risks to officers and others.

All officers engaging in vehicle pursuits shall have completed an emergency vehicle operator course, refresher training in emergency vehicle operation within two years prior to the pursuit, and be certified in at least one pursuit intervention option (RCW 10.116.060).

The College Place Police Department trains in the use of Stop Stick tire deflation as a pursuit intervention option.

308.14 POLICY REVIEW

Officers of this department shall certify in writing that they have received, read and understand this policy initially, upon any amendments and whenever training on the policy is provided.
