No, it does not impact the ability to supervise/authorize/terminate a pursuit. It also does not mean you cannot try a pursuit intervention with stop sticks if you are authorized to use them. It simply means that you cannot actively engage/pursue a suspect in a pursuit until you meet the law requirements to do so.

Hope that helps.

Aaron

Just for clarification, does this impact a listed supervisor's ability to approve, disapprove, and/or supervise an active pursuit in any way?

Subject: SB 5352 - Vehicular Pursuit Law
Importance: High

All,

I did some digging on the new pursuit law requirements. After being able to locate EVOC training records I have been able to create a list of personnel that are unable to engage in a pursuit until they are able to attend an EVOC training session. Here is the list of those folks no longer eligible to directly participate in a vehicle pursuit:

- Gardner (expired 5/18/23) = EVOC TBD
- Farris (expired 5/17/23) = EVOC scheduled for 10/15/23
- Mercer (expired 6/6/23) = EVOC TBD
- Malave (expired 2022) = EVOC TBD

Those that will expire in 2023 but currently comply with the state law as of today are:

- Kenyon (will expire 12/2/23) = EVOC TBD
- Thompson (will expire 11/21/23) = **EVOC currently scheduled for 10/15/23 so there shouldn't be any issue**
- Goff (will expire 11/?/23) = **EVOC currently scheduled for 10/15/23 so there shouldn't be any issue**
- Arnwine (will expire 9/21/23) = EVOC 10/15/23 * **Gap in certification**

This is the list I was able to create today. There are other potential variables that will be explored in addition to working with our in house EVOC cadre for scheduling of future trainings. In addition, the requirement of personnel being trained with at least one pursuit intervention technique includes PIT or stop stick training.

This is for information purposes now so you are all aware of personnel being impacted by the new state law.

Aaron
