Good afternoon,

On Tuesday, June 11, 2024 an email was sent to you in response to your public records requested received on June 7, 2024 requesting clarification and advising you of the assigned tracking number 24-111 and that responsive records are expected on or before Friday, June 21, 2024. There was no response received to the clarification requested.

Therefore, your request is being interpreted as a list of vehicle pursuit incidents our agency was involved in from 2019-2023 as a line-level data extract from RMS.

Responsive records are attached. The incidents are classified as either elude or pursuit. Case Reports are classified as elude.

Regarding policy manuals related to vehicle pursuits between 2019-2023 please find attached the current pursuit policy as well as the previous pursuit police and the changes from the most previous policy to current.

Regarding summaries of vehicle pursuit data for our agency between 2019 through 2023. I was only able to locate one annual report for the year 2022 which did not appear to have any information on vehicle pursuits.

There is no fee for these records.

Please let me know if you have any questions or concerns.

This request is considered complete and closed.

Sincerely,

Karen Mills | Law Enforcement Records

Hi Karen,

Thank you so much for your assistance with this request. I just have one follow-up question: Do you know the date range for when each of the three versions of the policy was in effect?

Thanks!
Heather

Hi Karen,

Actually, I do have one other question - Does your RMS system have a way of distinguishing between vehicle pursuits and other types of pursuits, like foot chases? I ask because some record technicians are searching for "pursuits" and getting results from both types of incidents.

Thanks!

Heather Kelly

Foot chases are not a specific category in our RMS system.

Got it, so the data you provided may include foot pursuits as well, correct?
