Hello Mrs. Taylor,

I'd like to submit a public records request, and I believe I've completed the correct form (attached). Please let me know if you have any questions. Thank you for your assistance!

Best,  
Heather Kelly

Good morning,

I have received your request for records. Can you clarify what you mean by "any/all other RMS data fields that are not required to be redacted by law"?

Sincerely,

*Sarah Taylor*

Records Specialist/Public Information Officer

Enumclaw Police Department

**Per RCW 42.56.520, agencies have up to 5 business days to provide a response to records requests. If you have received this correspondence in error, please delete this email and any included attachments.**

This is harder for me to respond to. It feels like we would want to give examples of required redactions, but I don't know of any. If we give examples of data that should be released, I'm concerned she will take that list literally and only provide the items we list.

One example we could give her would be the list of fields from Clark Co (I've added a couple from Kitsap):

- Incident number
- Incident date
- Reason initiated
- Time of day
- Initial violation
- Weather condition
- Pursuit distance
- Type of vehicle pursued
- Pursuit beginning location
- Pursuit ending location
- Agency initiating pursuit
- Agency ending pursuit
- Event that concluded the pursuit
- Why pursuit was terminated
- Who terminated pursuit
- Driving under the influence factors
- In-car camera available
- In-car camera used

The pursuit was aborted  
An accident occurred during the pursuit  
Driver being pursued was arrested for DUI  
Aerial vehicle was available to assist  
Aerial vehicle was used to assist  
Stop device was used  
Type of stop device that was used  
Liability claim filed  
Pursuit justified  
Pursuit within policy  
Citizen injury tally  
Employee injury tally  
Damage tally

I agree that listing things would just artificially restrict what we get. What if we just wrote back and said "we are requesting all data that isn't exempt from disclosure under the Public Records Act." If she is still confused, she can ask again and we can go from there.

As long as it's clear what kind of data we want. Not the case files (even if these are stored electronically). We want all data from an incident-based records management system designed to electronically store a uniform set of data elements for each pursuit. Maybe

We are requesting data from an electronic records management system that contains information on each pursuit incident. We are not requesting the case files for each incident, but instead data that are stored as a list, where each row is an incident, and each column is a specific type of information for that incident.

Then pull in the list

To: Sarah Taylor <staylor@police.ci.enumclaw.wa.us>

Hi Sarah,

Thanks for reaching out! We are requesting all vehicle pursuit data collected by your agency, except for what's exempt from disclosure under the Public Records Act. We aren't asking for individual case files of vehicle pursuit incidents, but rather the data from your electronic records management system. The data is typically stored as a list and can be exported as a spreadsheet, where each row is an incident, and each column is a specific type of information for that incident.

Here are some examples of the type of data collected and disclosed by other jurisdictions:

Does that answer your question?

Best,

Heather Kelly

Yes, thank you.

We do not maintain our information as a data list, but I can find documentation that should answer those questions. I will have those records to you three weeks from now, or by July 15.
