

Ferndale Police Department
MEMORANDUM

Date: January 2, 2022

To: Lt. J. VanderYacht

From: Cpl. M. Healey

Subject: 2021 Pursuit Review

I have reviewed all cases regarding possible pursuits or eluding cases from 01-01-2021 to 12-31-2021 for the Ferndale Police Department. There are no reports that indicate a pursuit or attempt to elude occurred with any Ferndale Police units in the calendar year.

I have also queried any reports that are flagged as "use of force", which also resulted in no applicable cases. Finally I have searched for the words "pursuit", "elude" and "eluding" in narratives to no avail.

Being that no pursuits occurred, there are also no pursuits that are outside of department policy.

There are no attached cases, due to no pursuits occurring.

2022 Training Recommendations:

No pursuits occurred involving Ferndale Police units, most likely due to new and evolving state legislation.

As the current EVOC instructor I recommend that we conduct our yearly EVOC training, as well as include revised scenarios that involve pursuit style scenarios that match existing legislation.

2022 Equipment Recommendations:

I have no equipment recommendations at this time.

2022 Policy Revision Recommendations:

I have no policy revision recommendations at this time.
