01.42.010 PURPOSE

Certain critical activities engaged in by police employees represent high risk areas for the agency and justify a thorough review and analysis process. Those areas are listed as our "critical incidents." While those individual areas are policy controlled by other sections of the manual, this policy mandates the annual management review of those areas. Specifically, reports that document "critical incidents: are:

- Vehicle Pursuits
- Use of Force Incidents
- Internal Investigations
- Biased Based Profiling Incidents

01.42.020 PROCEDURE

Annually, reports will be prepared and forwarded to the Chief of Police for review, analysis, and final approval on all listed critical incidents that the agency experienced during that year. The purpose of conducting a high level review are these critical incidents represent high liability areas for the agency.

While critical incident reports can be prepared by any member of the agency, only the Chief of Police can perform the final review and approval.
