**Print Date/Time:** 04/10/2024 13:35

### People Involved:

**Suspect:** Has not yet been identified.

**Victim:** State of Washington

### Vehicles involved:

**Silver 2017 Audi A7 (WA BHP3917)**

### BWC:

This report is intended to be a summary of events that occurred under Kennewick Police event number listed above. This report has paraphrased conversations and do not include exact sequencing of events. For exact sequencing and statements please refer to the recording of this event by my body camera, as it was recording during this incident. All persons involved in this incident were advised of the body camera recording when feasible.

### Initial Information Prior to Call:

In roll call, Sergeant Melone advised that a silver 2017 Audi A7 (WA BHP3917) had been stolen and the suspect was involved in armed robbery and an additional auto theft earlier today. The suspect in the case was connected to numerous vehicle thefts and burglaries that already occurred throughout the Tri-cities. It was advised that due to the violent offenses committed, there may be a pursuit if the Audi is located.

**KPD Case 23-042265:** 05/31/2023 around 2244 hours, Victim reported her Black 2015 Cadillac SRX (WA AVP9304) stolen.

On 06/04/2023 around 0137 hours, I located the black 2015 Cadillac SRX at a Chevron Gas station, a white male (Same suspect involving the current report), got into the vehicle and fled. I did not pursue the vehicle due to the information I had at the time.

**PPD Case: 23-028419:** 06/04/2023 around 1029 hours, a suspect went inside the garage of a victim and grabbed a purse containing a firearm. The suspect then exited the garage and got into the vehicle that was parked in the driveway, of an additional victim at the residence. The

suspect then stole the vehicle and fled.

**KPD Case 23-43261:** On 06/04/2023 around 1646 hours, a silver 2017 Audi A7 bearing (WA BHP3917) was stolen from the residence while it was parked in the garage. The suspect abandoned an additional stolen vehicle at the location.

**RPD Case 23-22941:** On 06/04/2023 around 1400 hours, suspect involved stole a vehicle using a firearm and returned back to the location and pointed the firearm at the victim and then hit the victim with the stolen vehicle.

**KPD Case 23-43312:** On 06/04/2023 around 1935 hours, The Audi was located and pursued. Due to several public safety factors the pursuit was ended.

I also received a photo of the Audi through our FLOCK Cameras to familiarize myself with the suspect vehicle.

### INITIAL RESPONSE/CONTACT:

On 06/04/2023, I was working as a uniformed police officer for the City of Kennewick, wearing a fully marked patrol uniform, driving fully marked patrol vehicle #7820. At around 2040 hours I was heading eastbound at the intersection S.R. 395, and W. Kennewick Ave., when I observed the silver Audi A7 parked in the Denny's parking lot next to a brick wall, at the northwest corner of the building. The Audi was parked in a way to conceal itself from any vehicle traffic, traveling on W. Kennewick Ave. I was not able to see the license plate of the Audi from the intersection I was at. The brake lights on the Audi were activated, showing the Audi was not in park. As I entered the parking lot entrance to Denny's from S.R 395, I got close enough to confirm the license plate on the vehicle showed (WA BHP3917). I radioed Dispatch that I located the Audi and was going to attempt to stop the Audi. I activated my overhead emergency lights and siren. As I activated my lights and sirens, the Audi drove away at a high rate of speed. Due to the above listed information I informed dispatched I was in pursuit of the Audi, as it was failing to stop for me and driving in a reckless manner to get away from me. The Audi cut across the multiple lanes of travel through W. Kennewick Ave. causing multiple vehicle to immediately come to a halt. The Audi continued through the Rite Aid (101 N. Ely St.) and Gold's Gym parking lot (151 N. Ely St.) northbound. The Audi was going approximately 35 MPH through the parking lot. The Audi exited the parking lot onto W. Clearwater Ave. cutting through two eastbound lanes and a center turning lane before heading westbound. At this time the Audi accelerated to approximately 80 MPH. The Audi continued on W Clearwater Ave before turning northbound onto N. Morain St. The Audi continued northbound on N. Morain St (turns into N Neel St) until it reached the intersection at W. Canal Dr. By this time, myself and several other officers behind the vehicle. I was still the lead patrol vehicle at this time. Due to the Audi's speed and the distance between myself and the Audi, I advised dispatch, I could no longer see the Audi and I was terminating my pursuit, this includes deactivating my lights and sirens on my patrol vehicle. I continued westbound to check for the Audi when Officer Brakebill informed he located the Audi and was in pursuit near N. Edison St and W. Canal Dr. I activated my lights and sirens again and began driving towards

# Case Report

Print Date/Time: 04/10/2024 13:35

Officer Brakebill. I continued westbound towards Columbia Center Blvd. behind Officer Brakebill. At this time there was light traffic on the road and the Audi reached speeds of approximately 100MPH. At the intersection of W. Canal Dr. and N. Young St., The Audi entered the Burlington Coat Factory parking lot at speeds of approximately 40 MPH. The Audi exited the parking lot next to Arby's (1310 N. Columbia Center Blvd.) and cut through three lanes of oncoming traffic going northbound on North Columbia Center Blvd. The Audi cut through three more lanes of oncoming traffic going northbound from W. Rio Grande Ave, before merging onto N. Columbia Center Blvd, southbound. I continued pursing the vehicle when Officer Brakebill informed the Audi had come to a stop in the grass next to Bank of America (7600 W. Quinault Ave.).

See additional officers reports for more information.

This report is intended to be a summary of events that occurred under Kennewick Police case number 23-043319. This report has paraphrased conversations and do not include exact sequencing of events. For exact sequencing and statements please refer to the recording of this event by my body camera, as it was recording during this incident. All persons involved in this incident were advised of the body camera recording when feasible.

On 6/4/2023 at approximately 2034hrs, while I was working patrol in the City of Kennewick, County of Benton, driving a fully marked patrol car equipped with overhead emergency lights and siren, SECOMM Dispatch had advised Richland Police of a stolen vehicle that had been driving all over Benton County and in the City of Kennewick and Richland. The vehicle, a silver 2017 Audi A7, bearing WA BHP3917, had been stolen out of Kennewick Police and the suspect was believed to be armed as he carjacked another vehicle in the City was last seen by Richland Police on Leslie Rd at W Clearwater. Richland Police terminated the pursuit with the vehicle after they lost sight of the vehicle. The driver had been driving reckless and eluding police at very rates of speed.

Shortly thereafter, Kennewick Police officers located the vehicle near S Columbia Center Blvd and W 4th Ave. The vehicle turned eastbound on W 4th Ave. The suspect vehicle again accelerated to a very high speed. KPD officers lost sight of the vehicle still heading eastbound on W 4th Ave at near S Edison St.

Approximately 2 minutes later, KPD officers located the vehicle in the parking lot of the 2800blk of W Kennewick Ave. The vehicle exited the parking lot northbound across W Kennewick Ave adjacent to S Ely St and back out onto W Clearwater Ave and heading westbound. Officer Garcia initiated a pursuit with the vehicle. I was at N Edison St and W Clearwater Ave, so I pulled into a parking lot along the westbound lanes to attempt to throw stop sticks at the suspect vehicle.

The vehicle then turned northbound onto N Morain St. The suspect again accelerated very quickly to a very high rate of speed towards W Canal Dr and Officer Garcia lost sight of the vehicle. Officer Garcia advised he was unsure which way the vehicle went on W Canal Dr. I got back into my patrol car and drove towards W Canal Dr on N Edison St.

As I approached the intersection of N Edison St and W Canal Dr, the suspect vehicle entered the intersection of W Canal Dr and N Edison St from the east on W Canal Dr. My overhead lights were already activated

# Case Report

## Detail

**Agency:** KENNEWICK PD

**Agency #:** WA0030100

**Print Date/Time:** 04/10/2024 13:35

when I had exited my patrol vehicle at W Clearwater Ave. The suspect turned northbound on N Edison St from W Canal Dr towards Hwy 240. I activated my emergency siren to initiate a pursuit.

The vehicle got into the inside lane and turned westbound on W Tucannon Ave, traveling at approximately 40-50MPH. The vehicle turned southbound on N Grant St, heading back towards W Canal Dr. The suspect then turned westbound on W Canal Dr and accelerated to an estimated 70-90MPH. I continued behind the vehicle and observed the vehicle going around vehicle in both lanes.

I heard Officer Volland advise SECOMM Dispatch that he was going to attempt to set up stop sticks near W Canal Dr and N Columbia Center Blvd. I advised Officer Volland that I was a distance behind the vehicle but could still see that the vehicle was approaching N Young St on W Canal Dr and in the outside (curb) lane.

The vehicle suddenly made a very quick turn southbound into the parking lot of Burlington store, located at 7500 W Canal Dr. I turned southbound on N Young St and immediately into parking lot and did not see the vehicle. I drove towards the front of the store where I observed several citizens standing. I slowed down to ask where the vehicle went and they pointed to the west towards N Columbia Center Blvd.

I drove to the western most exit of the parking lot, which exits to the northbound lanes of N Columbia Center Blvd. At about that time, I heard officers stating the vehicle was south of the location, near N Columbia Center Blvd and W Quinault Ave. I exited the parking lot and headed southbound towards the vehicle's location.

The vehicle appeared to have traveled southbound in the northbound lanes of N Columbia Center Blvd, across W Rio Grande Ave, about halfway between W Rio Grande Ave and W Quinault Ave (approximately 100-150 feet) in the northbound lanes where it struck the median, which is a raised curb with large rocks in the median, approximately 20 feet of distance between the northbound and southbound lanes of N Columbia Center Blvd. There were faint tire marks on the ground just prior to the vehicle striking the curb, which caused two gouges in the curbing.

The vehicle appeared to have struck the curb at a slight angle, and enter the median. Due to the undisturbed rock in the median, it appears that the vehicle was airborne for approximately 20 feet where it struck the rock

# Case Report

## Detail

**Print Date/Time:** 04/10/2024 13:35

and then curb. There was a gouge in the curbing where the right tire struck the inside of the curbing and exited the median.

The vehicle exited the median onto the northbound lanes of N Columbia Center Blvd where it struck the pavement and caused scrape marks from the front of the vehicle. The vehicle continued at a southwest direction across the southbound lanes of N Columbia Center Blvd where it struck the curb on the west side of N Columbia Center Blvd. The vehicle came to a stop on the grass between the curb and the sidewalk. The driver of the vehicle fled the vehicle to the west through the bank parking lot at the location.

Mel's Towing responded to tow the vehicle to the Kennewick Police Station for a possible search warrant at a later time. Mel's Towing arrived and loaded it on the flatbed truck. I watched as the driver loaded it on the truck and never entered the vehicle. I followed the truck and vehicle back to the Kennewick Police Station, never losing visual contact with the vehicle. The vehicle was offloaded in the secured Kennewick Police parking lot. Officer Severson and I secured the vehicle's doors, windows, trunk, hood, and other openings with evidence tape. My BWC was activated during the sealing of the vehicle. I also took photographs and uploaded the photographs to evidence.com.

At this time, the driver of the vehicle has not been identified.

This ends my involvement in this case.

Supplemental

This report is intended as a summary of the events under the corresponding case number. I have paraphrased conversations and they do not include an exact sequence of events. For any exact quotes or the exact sequence of events, I would refer the reader to my body-worn video, as it was recorded at the time of the incident.

On 06/4/2023 I was working as a uniformed patrol officer for the City of Kennewick, in the County of Benton. I was driving marked patrol car #7106.

Officers relocated a stolen vehicle that had eluded other officers previously.

This 2017 Audi A7 (WA/BHP3917) had been involved in a pursuit with Richland Police Department earlier in the shift but they had lost visual of it near the west end of Kennewick. It has also been in one pursuit with KPD earlier in the shift but that pursuit was terminated due to safety concerns.

It was also mentioned at roll call that it had been involved with several violent crimes (RPD 23-22941) and that the driver was allegedly the driver associated with RPD 23-22900, where a stolen car struck multiple police cars before escaping.

# Case Report

## Detail

Agency: KENNEWICK PD  
Agency #: WA0030100

Print Date/Time: 04/10/2024 13:35

I was in the area of 4th and Vancouver when Ofc Garcia located the stolen Audi near Denny's and the Audi took off again. I came back towards Morain as the vehicle had left the parking lot to Morain and then north on N Morain.

Other officers located the vehicle heading north on Morain to Canal. I turned onto Morain and continued to W Canal looking for the car. I heard radio traffic that the car was westbound on W Canal so I turned west and attempted to catch up to the pursuit. I was in my fully marked patrol car with emergency lights and sirens activated.

As I was passing through the N Edison intersection I could hear that the car was turning toward a parking lot. I continued west on Canal and as I was approaching the turn to the parking lot of Burlington Coat factory, radio traffic told me that the car was now past CCB at or near the US Bank off Clearwater.

This ends this report

# Case Report

## Detail

**Agency:** KENNEWICK PD  
**Agency #:** WA0030100

**Print Date/Time:** 04/10/2024 13:35

This report is intended to be a summary of events that occurred under Kennewick Police event number 23-043319. This report has paraphrased conversations and do not include exact sequencing of events. For exact sequencing and statements please refer to the recording of this event by my body camera, as it was recording during this incident. All persons involved in this incident were advised of the body camera recording when feasible.

On 06/04/2023, I was working as a uniformed police officer for the City of Kennewick, wearing a fully marked patrol uniform, driving fully marked patrol vehicle #7808.

At approximately 2040hrs, Ofc Garcia advised over the radio that he had located a stolen vehicle, which was a silver in color 2017 Audi bearing Washington license plate BHP3917, and was in pursuit from the area of the 2800 block W Kennewick Ave. It should be noted said vehicle was stolen out of Kennewick earlier in the day and the suspect involved in the incident was believed to be armed. In addition, during shift briefing we were advised Richland Police Department had developed probable cause to arrest the driver of said Audi for Aggravated Assault, Robbery, and Hit and Run (RPD 23-022941).

As Ofc Garcia pursued the vehicle, he advised he was westbound on W Clearwater Ave, from the area of 151 N Ely St. Given my proximity to Ofc Garcia, I proceeded to the intersection of W Clearwater Ave and N Morain St from the approximate area of W 4th Ave and S Conway St. When I arrived at the intersection, I observed the Audi take a right hand turn from W Clearwater Ave onto N Morain St, and continue northbound at a high rate of speed. Once Ofc Garcia turned onto N Morain St, I proceeded through intersection and continued northbound behind Ofc Garcia who was still the lead vehicle in pursuit of the Audi.

While pursuing the Audi northbound it reached speeds of over 60 mph. The driver of the Audi continued northbound until he reached the intersection of N Neel St and W Canal Dr. Due to the grade in the roadway, and the distance the Audi had created between Ofc Garcia and I we lost sight of it, and were unable to determine the direction the vehicle went. Once we lost sight of the vehicle, the pursuit was terminated.

23-043319

Officer S. Cristelli K74

Supplemental Report

On June 4, 2023, I was working uniformed patrol in a fully marked police vehicle in Kennewick, Benton County, WA. During shift briefing at 1800 hours, I learned dayshift Officers had taken a stolen vehicle report where a 2017 silver Audi A7 (WA BHP3917) was taken from 4405 W 21st Ave in Kennewick. The suspect of this vehicle theft was more than likely linked to the spree of vehicle thefts, stolen firearms, burglaries, and a Robbery that had occurred in the Tri Cities Area throughout the weekend. Richland PD advised they had probable cause for the driver for the Robbery reference RPD 23-022941.

This report is intended as a summary of the events under the corresponding case number. I have paraphrased conversations and do not include an exact sequence of events. For any exact quotes or exact sequence of events, I would refer the reader to my body worn video, as it was recording at the time of the incident.

Richland Officers called out pursuing the Audi A7 towards Kennewick for the second time at approximately 2030 hours (RPD 23-022992). While monitoring the Richland pursuit, I heard RPD lose sight of the stolen Audi A7 (WA BHP3917) near W Clearwater Ave and N Steptoe St. At this time, I was in the area of W 10th Ave and N Columbia Center Blvd in Kennewick. I began traveling north on N Columbia Center Blvd. As I approached W 7th Ave, I observed the stolen Audi A7 traveling at a high rate of speed south on N Columbia Center Blvd at the W 4th Ave intersection. The stolen Audi A7 accelerated through the listed intersection, and began traveling eastbound on W 4th Ave. By the time I got to W 4th Ave, I could only see dust on W 4th Ave. I could not see the Audi A7 after it disappeared at a high rate of speed eastbound. I traveled east on W 4th Ave and was told by numerous bystanders that a silver Audi was traveling around 100mph ahead of me, past N Edison St. I never activated my lights or siren.

# Case Report

## Detail

Agency: KENNEWICK PD  
Agency #: WA0030100

Print Date/Time: 04/10/2024 13:35

Around 2040 hours, Officer Garcia advised he was pursuing the stolen Audi A7 (WA BHP3917) westbound on W Clearwater Ave from US 395. As the pursuit continued westbound on W Canal Dr., I paralleled westbound on W Clearwater Ave to assist by deploying spike strips. Officers advised that the Audi A7 was in the parking lot of Burlington Coat Factory off of W Canal Dr. Shortly thereafter, I heard that the Audi A7 had crashed out in the parking lot of Bank of America, located at 7600 W Quinault Ave in Kennewick, WA. I responded to Bank of America with my emergency lights and siren activated.

This concludes my involvement with this case.

KPD Case #23-043319

Ofc. Brady Volland #2110/K90

Supplemental Report

On 06/04/2023 at approximately 2036 hours, I was working uniformed patrol for the City of Kennewick, Benton County, Washington. I was in marked patrol car #7105, which is equipped with overhead lights and a siren. At this time, I was dispatched to assist with this call in the Kennewick Area.

This report is intended as a summary of the events under the corresponding case number. I have paraphrased conversations and do not include an exact sequence of events. For any exact quotes or exact sequence of events, I would refer the reader to my body worn video, as it was recording at the time of the incident.

Dispatch advised that Richland PD was in pursuit of WA/BHP3917 (silver Audi A7), and was traveling north bound on Leslie Rd. WA/BHP3917 had been driving throughout Kennewick, Richland, Pasco, and Benton County throughout the day driving recklessly. It had a stolen status, as it had recently been stolen out of Kennewick and had not been recovered. It had been involved in various crimes throughout multiple jurisdictions to include a carjacking/aggravated assault in which the suspect was armed with a firearm (Richland PD), amongst other crimes such as Burglary 1st (Pasco PD), Eluding (Richland PD), and hit and run (Richland PD). It was also tied to multiple auto thefts spanning across the various jurisdictions.

Eventually, they had lost sight of the vehicle, and believed it was east bound on W Clearwater Ave from the

**Print Date/Time:** 04/10/2024 13:35

intersection with Ridgeline Dr. I was en route to another priority call, and observed the vehicle traveling east bound on W Clearwater Ave from N Steptoe St. I did not engage with or pursue the vehicle as I was en route to the priority call.

Approximately 10-20 minutes later as I was finishing my other priority investigation, I was alerted that Ofc. Garcia had located the vehicle in the area of W Kennewick Ave/ US 395 and had initiated a pursuit on the vehicle, as it was fleeing from him when he attempted to contact it. He then advised that the vehicle was west bound on W Canal Dr from N Morain St. Due to my position, I went to W Canal Dr/N Columbia Center Blvd.

Ofc. Garcia advised he has lost sight of the vehicle, still continuing west bound.

Ofc. Brakebill then advised that he was behind the vehicle, which was still west bound on W Canal Dr, approaching the intersection with N Young St.

Due to the position and direction of travel of the vehicle, I believed it would be effective to set spike strips in the west bound lanes of W Canal Dr at the intersection with N Columbia Center Blvd. I also believed that it was appropriate to do so, based on the information known to me at the time. This included the violent crimes of robbery/aggravated assault with a firearm amongst the other crimes that the vehicle was associate with having committed earlier in the day.

Due to this, I set spike strips in the west bound lanes of W Canal Dr at the intersection with N Columbia Center Blvd.

I then observed the suspect vehicle approaching my location, before it quickly pulled into the parking lot in the area of 7411 W Canal Dr. I observed it drive west bound, and then south bound through the parking lot.

I collected the spike strips I had set, and placed them back into my patrol car.

I was then notified that the vehicle had crashed in the area of the nearby Bank of America, and went to that location, which was approximately  $\frac{1}{4}$  of a mile from my current position.

This concludes my involvement

23-043319 Pursuit

06/04/23 2042 Hours

Officer Armitage 1716

This report is intended as a summary of the events under the corresponding case number. I have paraphrased conversations and do not included an exact sequence of events. For any exact quotes or exact sequence of events, I would refer the reader to my body worn/vehicle video, as it was recording at the time of the incident.

On 06/04/23 at approximately 2042 hours, I was on uniformed patrol in a marked patrol vehicle. I heard on the radio KPD units in a pursuit in the area of N Morain St and W Canal Dr, Kennewick, Benton County, WA.

The pursuit was with an Audi A7 WA/ BHP3917. This vehicle had been in other pursuits throughout the day. I heard the vehicle was heading Westbound on W Canal Dr from N Kellogg St. I followed Officer Volland to W Canal Dr and N Columbia Center Blvd where Officer Volland was preparing to lay Stopsticks. On the radio, I heard the vehicle was then driving West through the Burlington Coat Factory parking lot. At this time, I could see the vehicle driving at a high rate of speed through the parking lot where it then went South towards W Quinault Ave. The vehicle appeared to leave the parking lot onto N Columbia Center Blvd near W Rio Grande Ave.

I could see the Audi driving West from the parking lot near Ulta Beauty (1232 N Columbia Center Blvd). I watch the Audi hit the median and rock and dirt. The Audi continued into the Southbound lanes of N Columbia Center Blvd going West until it hit the side of the road near Bank of America (7600 W Quinault Ave).

This concludes this report

### Description:

KPD Case #23-043319

Ofc. Brady Volland #2110/K90

Supplemental Report (Add On)

On 06/04/2023 at approximately 2036 hours, I was working uniformed patrol for the City of Kennewick, Benton County, Washington. I was in marked patrol car #7827, which is equipped with overhead lights and a siren. At this time, I was dispatched to assist with this call in the Kennewick.

This report is intended as a summary of the events under the corresponding case number. I have paraphrased conversations and do not include an exact sequence of events. For any exact quotes or exact sequence of events, I would refer the reader to my body worn video, as it was recording at the time of the incident.

This supplemental report is an add-on to the previous supplemental report I have written under this case numbers. For details regarding my involvement prior to this add-on, please refer to that supplemental report.

After being notified by a county deputy that the suspect vehicle had crashed in the area of the nearby Bank of America, I began to drive in that direction.

While en route to Bank of America, I entered the parking lot of Columbia Center Mall (1321 N Columbia Center Blvd), and drove south bound through the parking lot, towards Bank of America. When I was approximately 600 feet away from Bank of America, I was advised via dispatch that a county unit had seen the suspect reaching for his waistband. Just after this he called out "shot's fired." At this point, I was able to see that a county patrol vehicle was parked on the west side of US Bank (which is directly north of Bank of America). Due to this, I parked on the east side of US Bank. This was in-case the suspect was fleeing on foot in this direction, or if the suspect had otherwise changed his position.

As I parked my vehicle, I noticed the suspect male to be lying on the ground, approximately 30 feet south of my patrol car. The male clearly had at least 1 large wound to his arm, and was actively bleeding. I also noticed there to be a dark colored handgun on the ground, about 15 feet to the east of him.

I exited my patrol vehicle, with my firearm drawn and pointed in a safe direction.

I noticed that the county unit was present next to his car, and Officer Armitage (KPD) had just arrived and was parked approximately 30 feet to my west. Multiple officers/deputies (myself included) began to give the suspect commands to not move. As to not confuse the suspect, myself and other officers ceased giving verbal commands, and only Officer Armitage gave verbal commands.

Over the coming moments, other officers and deputies arrived. We began to assign roles amongst each other, and ensure that we had the proper equipment to safely take the suspect into custody, and render aid to him. Once it was determined that it was safe to contact the suspect, we decided to approach the suspect.

We then approached the suspect, and he was placed into handcuffs. As soon as the suspect was placed into

# Case Report

## Detail

**Agency:** KENNEWICK PD  
**Agency #:** WA0030100

**Print Date/Time:** 04/10/2024 13:35

handcuffs, and a weapon frisk was completed, I holstered my firearm and began to assist tending to the suspect.

I did a sweep on one of his legs, which had a large amount of blood on it. I did not notice any wounds to this leg. I then used sheers to cut of the suspect's clothing to be able to better asses any potential wounds.

While I was doing this, other officers had located wounds on other areas of his body which were tended to with medical supplies such as tourniquets and chest seals.

After the suspect was safely in custody and tended to, medics arrived and began to tend to the suspect before transporting him to a hospital.

I then began to take photographs of the immediate scene, which I uploaded to evidence.com

I then began to take on the role of scene security. I did so from this point, all the way through SIU's arrival, and whilst they conducted their preliminary investigation. I maintained a sign in/out sheet of who entered the crime scene, which I turned over to SIU when it was completed.

I then assisted in removing the crime scene tape, and other minor crime scene cleanup efforts (after SIU had completed this portion of the investigation).

This concludes my involvement in this case.

**This supplemental report is an add-on to the previous supplemental report I have written under this case numbers. For details regarding my involvement prior to this add-on, please refer to that supplemental report.**

**Via radio, Officers announced that the suspect was reaching for his waistband. This was all heard while I was driving through Columbia Center Blvd. intersection. Shortly after, officers announced that the Audi had come to a stop near the area of 1200 block of N. Columbia Center Blvd.**

**At this time, I was behind Officer Brakebill's patrol vehicle. I then stopped behind Officer Brakebill and exited my patrol vehicle. I moved up to assist with making contact with the vehicle. Shortly after, I heard several gunshots, west of my position.**

**Officers announced over the radio, that shots had been fired.**

**As I began moving towards the direction of the heard gunshots, I observed several other officers in the U.S Bank parking lot (1221 N. Columbia Center Blvd.) giving commands to a male on the ground. The male was later identified as Jeffrey G. Reeder (DOB 09/12/1991). Jeffrey was laid out on the ground face down. I also observed a dark colored handgun on the ground, approximately ten feet to the east of where Jeffrey was positioned. I then began to head towards the direction of the officers in the parking lot. An arrest team was set up and I served as the arresting officer. The arrest team began to move forward towards Jeffrey. I took control of Jeffrey's right arm as handcuffs were placed on Jeffrey.**

**I noticed a large wound on Jeffrey's right forearm area that was bleeding heavily. I then seen some blood stains on Jeffrey's abdomen area.**

**Medical aid was then provided to Jeffrey. Using my medical shears, I cut off Jeffrey's shirt so other officers could check for any other gunshot wounds. I then began placing a tourniquet on Jeffrey's right arm, due to their being an exit wound from a gunshot. Other officer began assisting to additional injuries Jeffrey sustained. Medics arrived soon after and transported Jeffrey to the hospital. Jeffrey later succumbed to his injuries.**

Supplemental - Suspect Contact/Medical Aid Provided

On June 4, 2023 at approximately 2047 hours, I arrived to US Bank, located at 1221 N Columbia Center Blvd, in Kennewick, Benton County, WA. This report is and add-on to the previous supplemental I completed under this case file.

This report is intended as a summary of the events under the corresponding case number. I have paraphrased conversations and do not include an exact sequence of events. For any exact quotes or exact sequence of events, I would refer the reader to my body worn video, as it was recording at the time of the incident.

Upon my arrival, I observed the stolen Audi A7 (WA BHP3917), unoccupied and disabled after crashing in the Bank of America grass lawn, located at 7600 W Quinault Ave. Officers on scene prior to my arrival had called out "shots fired, suspect down," shortly after the stolen Audi A7 had crashed. Officers gave an updated location of the US Bank parking lot (1221 N Columbia Center Blvd). I ran down to the US Bank parking lot to assist at this time.

# Case Report

## Detail

**Agency:** KENNEWICK PD  
**Agency #:** WA0030100

**Print Date/Time:** 04/10/2024 13:35

As I entered the parking lot, I observed the male suspect being taken into custody by multiple Officers and Benton County Deputies. I approached the male suspect, put medical gloves on, and immediately began providing medical aid. I observed a large pool of fresh blood all around the male suspect, who was lying face down. I noticed a significant amount of blood on the male's left leg. After pulling up the male's shorts, I observed what appeared to be a gunshot wound high up on the outside of the male's thigh. I secured my CAT tourniquet around the male's thigh above the wound, stopping the bleeding. I then assisted Officer Sagen by locating another apparent gunshot wound to the right side of the male's ribcage. I wiped the blood off the wound and Officer Sagen placed a chest seal over it.

I then performed a wound sweep of the male's chest area to ensure there were no more open wounds. While Kennewick Medics were arriving, I maintained pressure on the chest seal to the male's right side (ribcage).

After the male was in the care of Kennewick Medics, I assisted by providing scene security on the south side of US Bank unit Kennewick City Streets arrived and coned off the scene.

This concludes my involvement with this case.

## Detail

Agency: KENNEWICK PD  
Agency #: WA0030100

Print Date/Time: 04/10/2024 13:35

On 06/04/2023, I was working uniformed patrol in the city of Kennewick, Benton County, WA. I was wearing my department issued Class-B uniform with a metal badge affixed above my left breast pocket and department patches sewn to both sleeves at the shoulders. My body-worn camera was affixed to my uniform shirt. I was driving marked patrol vehicle #7940, which is equipped with overhead emergency lights and a front mounted siren. My body-worn camera was activated at times during this incident, however I had no investigative role in this case.

At approximately 20:30 hours, I heard other officers locate the Silver Audi A7 that had been eluding officers from multiple agencies for most of the day. I drove toward the direction of the pursuit, activating my emergency lights and sirens, which also activated my body worn camera. I paralleled the pursuit as it moved westbound. I heard the suspect vehicle crashed near the Bank of America. Shortly thereafter, another officer advised there had been shots fired near the US Bank. Once I reached the scene, took a position to control traffic at N Columbia Center Blvd at W Quinault Ave. I remained there for approximately an hour and a half before I was relieved.

At approximately 00:45 hours, I relieved Officer Sagen at Kadlec Medical Center located at 888 Swift Blvd. I stood by with the deceased suspect until Pasco Police Department SIU Detective Julie Lee and the Pasco PD Evidence Technician arrived to photograph the body of the suspect. Once they were done photographing the suspect, I assisted the coroner with getting the suspect's body into a body bag. Once the bag was sealed, I watched the Pasco PD evidence tech photograph the tag of the body bag before and after it was attached to the zipper. After the tag was attached to the zipper, I escorted the coroner and the body of the suspect out of the emergency room.

This is the extent of my involvement in this case.  
Complete.

Eluding / Collision / Supplemental Report

23-043319

6/8/2023 0300hrs

Officer Mike Brakebill 1401/K58

This report is intended to be a summary of events that occurred under Kennewick Police case number 23-043319. This report has paraphrased conversations and do not include exact sequencing of events. For exact sequencing and statements please refer to the recording of this event by my body camera, as it was recording during this incident. All persons involved in this incident were advised of the body camera recording when feasible.

On 6/4/2023 at approximately 2034hrs, Kennewick police and several surrounding police agencies responded to the area of N Columbia Center Blvd and W Quinault Ave, after Kennewick Police had pursued a stolen vehicle that was being driven by an armed suspect who had committed numerous crimes throughout the Tri-Cities region, including burglary and robbery. The suspect was pursued to the intersection of N Columbia Center Blvd and W Quinault Ave where the vehicle crashed and came to a stop on the west side of N Columbia Center Blvd next to the Bank of America.

As I drove southbound on N Columbia Center Blvd towards W Quinault, I observed the vehicle stopped on the grass between the roadway and the sidewalk with the driver's door open and hazard lights flashing. The last radio transmission that I heard was that the suspect was in the bank parking lot and possibly reaching for his waistband.

I stopped my patrol vehicle approximately 30-40 feet to the northeast of the vehicle and drew my firearm and began yelling commands towards the vehicle, believing that the suspect was still in the vehicle. As I was continuing to yell commands, I heard distinct gunshots coming from the west of my location. I ran towards the fence that separates Bank of America and US Bank and noticed a male lying on the ground in the US Bank parking lot along with several law enforcement personnel. I then ran down the hill to assist taking the suspect into custody.

Once there were enough officers' on-scene, we formed an arrest team, with several placing the male in

# Case Report

## Detail

**Agency:** KENNEWICK PD

**Agency #:** WA0030100

**Print Date/Time:** 04/10/2024 13:35

handcuffs and others providing lethal cover, the male was placed into handcuffs. The male had sustained several gunshot wounds to several areas of his body. Several tourniquets and chest seals were applied to assist in lifesaving efforts until Kennewick Fire personnel arrived to take over lifesaving efforts. The male was then transported to Kadlec Medical Center for further medical treatment. Officer Sagen rode with Kennewick Fire while they transported the male.

I then went back up onto N Columbia Center Blvd where I assisted in ensuring that the car was clear any further occupants or suspects. Once the car was clear, it was left the same spot for the remainder of the investigation.

I then moved my patrol car to the intersection of N Columbia Center Blvd and W Quinault Ave and secured the scene with security tape along the outside of both scenes. I was later requested to complete a collision report as the suspect, who was later identified as Jeffery Reeder, had crashed the vehicle across the center median on N Columbia Center Blvd and onto the grass of the Bank of America. I also took photographs of the collision scene. The photographs were uploaded to evidence.com.

I remained as scene security until approximately 0220hrs. The vehicle was transported to the Kennewick Police station where it was sealed for a search warrant at a later date.

This ends my involvement in this case.

Complete

Officer C. Severson K88/2107

Continuation of previous supplement

This report is intended to be a summary of events that occurred under Kennewick Police event number 23-043319. This report has paraphrased conversations and do not include exact sequencing of events. For exact sequencing and statements please refer to the recording of this event by my body camera, as it was recording during this incident. All persons involved in this incident were advised of the body camera recording when feasible.

At the conclusion of the pursuit, Ofc Brakebill advised over the radio he had located the silver Audi (WA/BHP3917) traveling north bound from N Edison St towards State Route 240, and was in pursuit of it. A few moments later Ofc Brakebill stated the vehicle was west bound on Canal Dr from N Grant St. Due to the fact I was in close proximate to Ofc Brakebill's location I activated my patrol vehicle's red and blue overhead light, and proceeded towards his location from W Canal Dr and N Neel St.

As I continued west bound on W Canal Dr Ofc Brakebill stated the vehicle had entered the parking lot of Burlington coat factory (7500 W Canal Dr) and was continuing west. As I was approaching the intersection of W Canal Dr and N Edison St Ofc Brakebill advised the vehicle was in the grass at the Bank of America (7600 W Quinalt Ave) parking lot.

Shortly after Ofc Brakebill advised this an unknown unit to at the time advised the male was reaching his right hand towards his waist. Shortly after this was advised over the radio, a unit advised shots were fired, and the suspect was down in the US Bank parking lot (1221 N Columbia Center Blvd).

When I arrived on scene, I observed a male laying in the southern part of the US Bank parking lot. The male had obvious injuries to his body and there was a pool of blood formed around him. I joined fellow officers who were standing next to a patrol vehicle giving the male commands. While at the patrol vehicle, I observed a light colored handgun laying on the ground approximately 15-20 feet to the east of the male. Officers continued to give the male orders, however the male was not responsive to them. Once it was safe to do so officers approached to the male to render aid. As the officers approached the male, a Washington State Trooper and I proceeded to the location of the handgun. When we arrived at the handgun, the state trooper

# Case Report

## Detail

**Agency:** KENNEWICK PD

**Agency #:** WA0030100

**Print Date/Time:** 04/10/2024 13:35

placed his boot on top of it.

Once the suspect was in handcuffs and Officers began rendering aid I believed it safe to secure the handgun and remove it from the location it was laying. Prior to the handling of the handgun, I placed gloves over both of my hands. Once I possessed the handgun I proceeded to Ofc Volland's patrol vehicle 7105, which was just north of where the handgun was laying. When I arrived at the patrol vehicle, I began taking photos of the handgun. Note I did not possess my department issued phone at the time; and the photos I took were taken on Ofc Brakebill's department issued phone. At the conclusion of taking photos, I removed the magazine from the handgun, and placed it on the hood of the patrol vehicle. Note the magazine did contain rounds, however the amount of rounds that were in the handgun's magazine were unknown to me at the time. Once the magazine was removed, I pulled the slide back to remove any round that were chambered. When I pulled the slide back, a round was ejected from the handgun, and said round fell onto the ground. I collected this round off the ground and placed it onto the hood of the patrol vehicle.

Once the handgun was rendered clear and safe I proceeded to the back of patrol vehicle 7105 and unlocked the trunk with my vehicle key. Note due to the trunk having to be opened with a key the patrol vehicle was locked. I retrieved an evidence box intended for handguns from the rear of the patrol vehicle. I then placed the handgun recovered from the scene in said box. Note at the time I did not have access to zip ties so I was unable to completely secure the handgun to the box. In addition, I did not have direct access to an evidence bag, so the magazine removed from the handgun as well as the round ejected from the handgun were placed into a clear property bag. The bag was secured with a knot, and both the bag containing the round and magazine as well as the handgun recovered from the scene were placed into the secured trunk of patrol vehicle 7105. It should be noted the patrol vehicle was locked so I once again had to use my vehicle key to open the trunk of the vehicle. Once the handgun and magazine were placed inside patrol vehicle 7105 I shut the trunk and vehicle remained locked. Since Ofc Volland was operating patrol vehicle 7105 I notified him the handgun, magazine, and round were secured in the trunk of his vehicle.

Shortly after securing the above listed items in patrol vehicle 7105 I was instructed by Sgt Melone to head to hospital the suspect was being transported to. Given this, I proceeded to my patrol vehicle, and when I arrived Ofc Sagen who was in the ambulance with the suspect, advised over the radio that they would be transporting the suspect to Kadlec (888 Swift Blvd).

I proceeded to Kadlec and when I arrived, the suspect had already been moved inside the location and was receiving care from staff. While staff was rendering aid to the suspect another staff member provided Ofc Sagen and I a red plastic bag, which contained some of the suspect's clothing. To secure the bag and its contents I placed the red bag in the trunk of my patrol vehicle 7808. This was done to prevent the bag from being damaged as the foot traffic at the hospital was quite high at the time.

# Case Report

## Detail

**Agency:** KENNEWICK PD

**Agency #:** WA0030100

**Print Date/Time:** 04/10/2024 13:35

Staff at the hospital continued to provide aide until they pronounced the suspect deceased at approximately 2205hrs. Once staff concluded rendering aide I proceeded back to my patrol vehicle where I retrieved the red plastic bag and its contents. When I arrived back inside the hospital, Ofc Sagen and I entered the room the suspects was in. While inside Ofc Sagen collected additional articles of clothing and placed them into the bag.

Shortly after the additional clothing was collected, I was advised to clear from the hospital. The red plastic bag and its contents were left in Ofc Sagen's custody.

On 06/05/2023 at approximate 0220hrs, Ofc Brakebill advised over the radio Mel's Towing took custody of the silver Audi, and he was following Mel's Towing back to the station. I received a phone call from Ofc Brakebill requesting my assistance in securing the vehicle. At approximate 0225hrs, I began, securing the vehicle with red tape, which has "EVIDENCE" printed on it. Note prior to the placing of the tape I placed gloves onto both of my hands. I placed strips of this tape on the following the locations of the silver Audi (WA/BHP3917):

Rear driver side door

Front driver side door

Front driver side window

Rear driver side window

The sunroof

06/13/23 0234 Hours

Officer Armitage 1716

This report is intended as a summary of the events under the corresponding case number. I have paraphrased conversations and do not included an exact sequence of events. For any exact quotes or exact sequence of events, I would refer the reader to my body worn video, as it was recording at the time of the incident.

This report is a continuation of my previous report of the events on 06/04/23. After witnessing the silver Audi WA/ BHP3917 come to a stop in the grass on N Columbia Center Blvd in front of Bank of America (7600 W Quinault Ave), I saw a white male run from the vehicle down the hill towards the Columbia Center Mall.

I drove up to W Quinault Ave and entered the mall between Home Goods and Bank of America. I was behind other patrol vehicles who stopped in the small drive between Home Goods and Bank of America. I began to pass the patrol vehicles. As I was passing the first patrol vehicle parked, I heard gun shots coming from the direction officers were running. As I came around the first patrol vehicle, I saw the suspect male on the ground and a Benton County Deputy standing with his rifle.

I drove my patrol vehicle up to the suspect who I could see was bleeding from his side. I attempted to position my vehicle to create cover. I heard from a Deputy the male was attempting to car jack a vehicle that was in the parking lot. At this time, I saw a handgun that was about two parking spots over from the suspect on the ground. I had my patrol rifle deployed and began to yell simple commands to the male. The male attempted to

get up but quickly fell to the ground. The male was laying with a majority of his back facing me. I told me male he needed to lay on his stomach with his arms stretched out to his side. I gave the phrase “like an airplane” to keep instructions simple.

As more officers were arriving and they were finding their role in taking the male in custody, the male was not moving much. After gathering as many resources as we could, we approached the male and he was taken into custody. The male was then provided medical aid until medics could arrive. I provided a chest seal to officers who were providing aid.

After the male was loaded on the ambulance, the scene was secured and I provided scene security until SIU released the scene.

Officer Armitage 1716

Pursuit and OIS

This report is intended as a summary of the events under the corresponding case number. I have paraphrased conversations and they do not include an exact sequence of events. For any exact quotes or the exact sequence of events, I would refer the reader to my body-worn video, as it was recorded at the time of the incident.

On 06/04/2023 I was working as a uniformed patrol officer for the City of Kennewick, in the County of Benton. I was driving marked patrol car #7106.

I had been responding to an already involved pursuit. This report is a continuation of the previous report.

I had ended my previous report as I arrived at the area of Quinault and N CCB. I heard on the radio that the suspect Audi had stopped on the grass. As I pulled up I could hear another officer on the radio advise that the male in the car was reaching for his waist band. I parked my car approximately 100 feet from the car. I could see it was up off the street in the grassy area behind Bank of America.

As I was parking I heard multiple shots fired. I exited my patrol car and ran to the back of area of the bank and I could see a subject laying on the ground, in front of several patrol cars. I heard multiple officers giving commands to person.

I was going to head down the embankment and I saw several officers coming from the back area and I saw that they were in a crossfire situation so I call out a crossfire and made sure I went to my right, the left of the officers engaging the suspect.

As we came up to the patrol car, we stacked up and assigned tasks to all involved. I put nitrile gloves on to protect myself as I secured the suspect and to help provide aid. I was "hands", the dedicated person securing the suspect in handcuffs. I used my Smith and Wesson steel handcuffs.

When we were "safe" or the scene was secure, we moved up to secure the suspect and render aid. I placed the suspect in handcuffs and double locked them. After we had secured him, multiple officers went to work rendering aid to the suspect. I was confirming any wounds and making sure we didn't miss any. We placed tourniquets on wounds on the right arm and left leg. There was a bullet wound on the left hip but it was not bleeding much and we had no ability to treat it. The wound near the arm appeared to have gone through the arm and hit his side chest area.

I placed a chest seal on the chest wound (right side) and cut off numerous articles of his clothing to get a better gauge of the wounds on his body.

I did call on the radio a short time later to confirm a KFD Ambulance was enroute. When KFD and RFD arrived I gave information to them on the number of wounds as well as location. Fire staff took over the life saving measures at this point. I was advised that I would be riding with the Ambulance up to the hospital with the suspect.

I ran up to my car to park it on the grass and locked the doors (again). I ran back to the Ambulance where the suspect was loaded up and we started the transport to Kadlec Medical Center.

While enroute I was asked to take the handcuffs off the suspect so they could better render aid. I was smeared with his blood for another time. After I took the hand cuffs off I watched the suspect

rub his face and appeared conscious ( 2056 on BWC). The suspect didn't talk or respond much but I also did not interact with him while we were traveling.

Around 2103 on my body camera I heard the fire staff mention that his stats didn't look good and it appeared they started to increase their life saving measures.

We arrived at Kadlec at 2107 hrs and I watched the suspect get rolled into the ER and back to the main Trauma room. There was a large staff of medical personnel waiting for our arrival and I stepped back and out of the way to avoid interaction at the ER. I also ended my BWC recording due to HIPPA and KPD BWC policy while at the hospital.

I was tasked to stay with the suspect during the hospital stay. I spoke with several nurses about safety considerations and that it was my belief they did not need to lock the hospital down.

After a period of time the suspect was declared deceased while they worked on him. I was advised that SIU (Special Investigations Unit) would be conducting the investigation. I was also advised to secure the scene until I was relieved. I had asked about taking photos but I was advised that SIU was taking care of it.

I didn't check the exact time but after a period of waiting the Franklin County Coroner (FCC) arrived, Curtis McGary. He used a digital device to get the finger prints of the suspect. At this point we did not have a good identity of the subject. I was with the FCC the entire time and while doing this it was also found out that medical staff had not drawn any blood of the male during the life saving measures. The nurse took several blood draws from the chest of the male to secure the blood for the Benton County Coroner.

I did secure the scene until Dennis Morris from the Benton County Coroner arrived. I was there when Det. Nebeker arrived as well, from the SIU. They conducted their information and the body

was released to Benton County Coroner Dennis Morris.

The only persons that entered that room was medical staff cleaning the tools used and the area around the body. They did not disturb the body after he had passed, only the blood draw and Coroners as they did their tasks.

I was relieved by Ofc. Ealy-Thomas and I cleared the hospital shortly after that. My patrol car had been brought by other officers earlier.

For any exact quotes or exact sequence of events, I would refer the reader to my body worn video, as it was recording at the time of the incident.

On 06/04/2023 at approximately 2040hrs I was the supervisor for the City of Kennewick. My officers were in vehicle pursuit for a subjected wanted for armed robbery. I was headed to the west end of Kennewick and monitoring the pursuit on my radio. I heard over the radio that the vehicle had crashed at the Bank of America in front of the mall. I heard an officers say the suspect was reaching for his waistband and seconds later an officer say that shots were fired.

When I arrived on scene, I could see officers from my department, Benton County Sherriff's office, and

Washington State Patrol in the parking lot of the US bank. I could see the suspect was down in the parking lot of the bank. I ran down to the officers and had everyone come together to perform an arrest team. I could see a handgun lying in the parking lot two parking stalls away from the suspect. Commands were given to the suspect to roll onto his stomach. He did not comply and it appeared he was unable to comply. We moved up as an arrest team and detained the suspect in handcuffs. Once he was in handcuffs, he was treated with tourniquets and chest seals while we were waiting for medics to arrive.

Once the medics arrived, I coordinated securing the scene. I had OFC Sagen ride with the medics to the hospital and OFC Severson follow in a patrol vehicle. I was advised that Deputy Perez was the officers that fired shots. I located Deputy Perez by his patrol vehicle and made sure he was not injured. After conferring with CPL Benitez, I had Deputy Hull transport Perez to the Benton County Sherriff's office. Before leaving, I had Perez give his duty rifle to CPL Benitez.

The scene was secured and held for SIU. Once SIU had completed processing the scene, KFD was called in to wash down the scene.

This concludes my involvement.
