Eluding/Pursuit 2018-2021

4th Quarter 2021 Analysis

- 2128501077 – On 12 October at approximately 1pm, Lakewood officers responded to the GeoDis Ecolab building at 14801 Spring St SW in the Woodbrook neighborhood for a male shooting outside the business. The suspect tried to rob an employee of a vehicle at gunpoint but the victim didn't have keys. The suspect jumped into another truck. Officers boxed in the suspect but the suspect got the truck started, drove over a curb, through a fence, into a parked car at an adjacent apartment complex and almost into a large commercial truck before getting onto 150th St with officers in pursuit. The suspect threw his gun out of the window and threw power tools at officers during the pursuit. Officers PIT'ed the truck and after negotiating, less lethal devices and eventually a K9 application ended the incident with an arrest.
- 2129402403 – at 11:35pm on 21 October, 2021, there was a shooting at the Oakleaf Apartments at 4102 109th St SW. Upon arrival, officers discovered a deceased male with a significant shotgun injury. The motive was established, and evidence was collected by detectives who led Oregon State Police to the suspect who was arrested.
- 2131000084 – A fight at the Oaktree Food & Drink establishment on 6 November 2021 at 01:07am brought a Lakewood Police response. A deceased male was discovered in the parking lot where it was discovered that the deceased had attacked three soldiers with a 2x4. One soldier engaged the deceased with a knife and fatally stabbed him. Prosecutors have declined to charge stating self defense.
- 2134900409 – on 15 December 2021 at 07:21am, officers responded very quickly to 9618 Gravelly Lake Dr SW (vacant two story strip mall) for a fire. An officer attempted to get upstairs to the fire but it was already too smoky to get to where the fire was. The building owner (who had an abatement hearing that day) was working on the building with a homeless man when he went to get food. When he returned, the building was on fire and he could not find his worker. The worker was discovered deceased upstairs by West Pierce Fire and cause of death was determined to be smoke inhalation. Definitely an arson but the investigation into a possible homicide is ongoing.
- 1234702345- Drive By Shooting at the 5000 block of 108th St SW. On 13 December at close to midnight, the suspect stopped his car in front of the residence of an ex-girlfriend and fired seven shotgun blasts at the house and cars in the driveway, narrowly missing the resident who happened to be looking out of the window. That same suspect crashed into the car carrying the ex-girlfriend and fired a gun into the passenger side striking a passenger in the back. That suspect is still at large and considered armed and extremely dangerous.
- Shots Fired/Shooting related calls remain very high dipping from a high in September down to 42 in October, 31 in November and up high again in December to 58. Prior to this Summer, the average SHOTS per month since 2017 was 28. In the last six months, the average has risen to 31. Based on the recaps, many of those bullets are hitting targets.
- Year to Date Crimes Against Persons saw a 5% increase from the same time last year drive mostly by a 10% increase in Aggravated Assaults and an 8% increase in Simple Assaults.
- Property Crime was higher in the 4th Quarter 2021 than this analyst can ever remember and I've been tracking it since 2004. There was a month in 2018 where Property Crime rose above 500 incidents but in the crime charts going back to 2010, there is not a quarter where all three months were all well above 400. In October, November and December the property Crime numbers were 537, 468, and 488 respectively. Individual crime types are up across the board. Burglary, Vandalism, Larceny (shoplifting mostly), and Motor Vehicle Thefts were all up. Even Counterfeiting was up 45% YTD. The only respite came with Fraud which was down 17% from the previous year. Motor Vehicle Theft rose to 241 which is higher (almost double) than I can find in history. The jump from 134 in 3Q2021 to 241 in 4^{Q2021} raises the 5 year average from 97 to 105 (in one quarter).
- Total Crime follows the trend of both Violent Crime but mostly Property Crime therefore rose sharply to 1950 (combination of Persons, Property and Society Crimes). That's a 15% increase from the previous quarter and an almost 29% increase from the previous year.
