Hello,

This message is for Tina Klein, who processed my records requests 6 months ago.

I submitted several records requests from South Sound 911 around 6 months ago. I apologize for the delayed correspondence on my part, but I have some follow up questions, and the portal will not let me message there.

The requests in question:
W418953-042624
W418952-042624
W418951-042624
W418950-042624
W418949-042624
W418948-042624

These requests are all asking for the same things from different jurisdictions, and I received same format for all the requests. I have a question about one of the variables in the excel file you sent me. Here is a screenshot for example

The "Offense" field appears to have a mix of information types.
My questions are:

1. Does it represent a merging of multiple specific fields for:

- offense -- and is this the initiating suspected offense, the ultimate offense charged, or both?
- severity (e.g. Fel for felony)
- outcome (e.g., arrest)
- other context (e.g. bodycam)

2. If these are separate fields in their RMS, can we request this information in its original separate format?
3. Is there a coding manual to help understand the abbreviations used in the Offense field?

If this isn't the best way to get these questions answered, please let me know what is. Thanks so much!

Best,
Shira Idris
