Good morning, Heather,

I have attached in the following link, the police that you requested along with the report that Lieutenant Munden ran for me regarding pursuits. If you would like copies of the police reports, please let me know. I didn't include them because your request doesn't say that you want copies of those. Please let me know. Also, the link will expire in 10 days so please print and/or download the documents when you can.

Hello Amy,

Thank you so much for sending these along! I think you intended to send along a policy on pursuits, but what I'm seeing are two different grids of what looks like pursuit incidents. Can you clarify if I'm just not seeing what you intended? I'm also curious if you can share the difference between the two documents that you sent since they seem to reference different incidents.

Much appreciated!

Best,
Heather

The circled document will be the most accurate list. The other one is just a report that I ran with the word pursuit. It doesn't actually mean that there was a pursuit. I probably shouldn't have included it. It makes it more confusing. Sorry about that.

Hello, Amy!

Sorry to bother you again, but I was out most of August and am just getting around to downloading these files, but the link is expired. Can you send me a new one?

Best,
Heather
